

Table 3-15. Comparison of River Protection Assessment Results

Assessed Shoreline Lengths 100-K	2012	2013	Percent Change
Total length of shoreline adjacent to 100-K Area	4,000 m (13,120 ft)		
Length identified as “protected” Percent of shoreline “protected”	2,300 m (7,545 ft) 58% of shoreline	2,600 m (8,530 ft) 65% of shoreline	+13%
Length identified as “protected” (action may be required) Percent of shoreline “protected” (action may be required)	1,300 m (4,265 ft) 32% of shoreline	1,000 m (3,280 ft) 25% of shoreline	-23%
Length identified as “not protected” Percent of shoreline “not protected”	400 m (1,310 ft) 10% of shoreline	400 m (1,310 ft) 10% of shoreline	No change
