

Table 4-1. Yearly Peak Averages, 100-N Area River Gauge Station

| Year | Average River Elevation | Percent Difference from Previous Year |
|------------------------------|--|--|
| 2013 | 117.39 m (385.2 ft)* (based on average data 12/04/2012 to 12/04/2013) | 0.31 (compared to 2010) |
| 2012 | 118.28 m (388.1 ft)* (based on average over first 10 months) | Not calculated because it is a partial year |
| 2011 (January 1 to May 1) | 118.59 m (389.07 ft) | Not calculated because it is a partial year |
| 2010 | 117.76 m (386.35 ft) | 0.28 |
| 2009 | 118.09 m (387.43 ft) | 0.09 |
| 2008 | 118.20 m (387.47 ft) | 0.03 |
| 2007 | 118.24 m (387.93 ft) | 0.14 |
| 2006 | 118.41 m (387.47 ft) | 0.17 |
| 2005 | 118.21 m (387.83 ft) | — |

* 100-N river stage estimated from 100-B river stage.
